**SHOT LIST**

**World Health Organization/ Geneva/ Switzerland/ 28th September 2005**

***Dr Robert Beaglehole***

**Director of Noncommunicable Diseases and Health Promotion**

- SHOT 01 : Dr Robert Beaglehole walks up to camera
- SHOT 02 : Dr Robert Beaglehole : *"Without action, almost 350 million people will die from chronic diseases in the next 10 years, from heart disease, from stroke, from cancer, from diabetes. And many of these deaths will occur prematurely, affecting families, communities and countries alike."*
- SHOT 03 : Dr Robert Beaglehole flipping report
- SHOT 04 : Dr Robert Beaglehole : *"Chronic diseases are largely preventable. The real tragedy is that more hasn't been done to prevent chronic diseases At least 80% of heart disease, of stroke and diabetes, and 40% of all cancers can be prevented, by encouraging healthier eating habits, more physical activity and above all, by discouraging tobacco use."*
- SHOT 05 : Dr Robert Beaglehole : *"Low cost, simple approaches are the key to save at least 36 million lives by the year 2015."*
