Scope\_of\_Activities: Exercise Physiologist

Mandate\_of\_the\_Organization: I am submitting as an individual who conducts research on nutrition and physical activity in chronic disease.

Interest: See above.

Sources\_of\_Funding: I have NIH funding for my research.

Comments: I would like to add my support to the proposal made by Steven N. Blair who has recommended that the importance of physical activity be incorporated into this report. While I am aware that you have a brief separate report on Physical Activity, it would seem logical to include Physical Activity in this report as well because of the profound influence upon the prevention and the rehabilitation from chronic diseases. Very sincerely, Paul M. Ribisl, PhD, Wake Forest University
