

# Contents

<i>Acknowledgements</i> .....	1
<i>Introduction</i> .....	3

## Chapter 1

<i>Foodborne illness</i> .....	5
Food in health and disease .....	5
Extent of foodborne illness .....	8
Foodborne illness: its definition and nature .....	10
<i>Infection</i> .....	11
<i>Intoxication</i> .....	11
Infectious dose .....	12
Health consequences of foodborne illness .....	13
Economic impact of foodborne illness .....	16

## Chapter 2

<i>Foodborne hazards</i> .....	17
Biological hazards .....	17
<i>Parasites</i> .....	17
<i>Viruses</i> .....	18
<i>Bacteria</i> .....	18
Chemical hazards .....	18
<i>Industrial pollution of the environment</i> .....	20
<i>Agricultural practices</i> .....	21
<i>Food processing</i> .....	22
<i>Natural toxicants in foods</i> .....	23
<i>Biological sources</i> .....	24
Mycotoxins .....	24
Algal toxins .....	26
Physical hazards .....	27

## Chapter 3

<b>Factors leading to microbial foodborne illness</b> .....	29
<b>Contamination - how do microorganisms get into food?</b> .....	29
<i>Microorganisms that occur naturally in foods (indigenous microflora)</i> .....	30
<i>Natural inhabitants of the environment</i> .....	30
<i>Polluted environment: insanitary practices in agriculture and aquaculture</i> .....	31
<i>Water</i> .....	32
<i>Pests and pets</i> .....	32
<i>The food handler</i> .....	32
<i>Equipment, utensils and kitchen practices</i> .....	33
<b>Growth</b> .....	34
<i>Availability of nutrients</i> .....	35
<i>Temperature</i> .....	35
<i>Acidity/pH</i> .....	36
<i>Water activity (<math>a_w</math>)</i> .....	37
<i>Oxygen (air)</i> .....	38
<i>Antimicrobial agents</i> .....	38
<i>Time</i> .....	38
<b>Survival</b> .....	39
<i>Major factors leading to foodborne illness</i> .....	41

## Chapter 4

<b>Hazards associated with different foods and their control</b> .....	43
Red meat, poultry and their products .....	43
Eggs and egg products .....	45
Milk and dairy products .....	45
Fish, shellfish and fishery products .....	46
Fruits and vegetables .....	49
Cereals and cereal products .....	51
Bottled waters .....	51

## Chapter 5

<b>Technologies for the control of hazards</b> .....	53
<b>Technologies that prevent contamination</b> .....	53
<i>Packaging</i> .....	53
<i>Cleaning and disinfection of equipment and utensils</i> .....	54
<i>Hygienic design of equipment</i> .....	55
<b>Technologies that control microbial growth</b> .....	55
<b>Technologies that remove or kill microorganisms in food</b> .....	56
<i>Heat treatment</i> .....	56
<i>Canned foods</i> .....	57
<i>UHT processing/aseptic packaging</i> .....	58
<i>Ionizing irradiation</i> .....	59
<i>Ultraviolet irradiation</i> .....	59
<i>Washing and disinfection</i> .....	59

## Chapter 6

<i>Hygiene in food preparation</i> .....	61
Physical factors: premises and equipment .....	62
Operational factors: hygienic handling of food .....	63
Personal factors: personal hygiene and training .....	64
The Hazard Analysis and Critical Control Point (HACCP) system .....	65

## Chapter 7

<i>The role of health workers in food safety</i> .....	69
The curative role .....	69
The preventive role: controlling foodborne hazards .....	69
<i>Domestic food handlers</i> .....	70
Expectant mothers .....	70
Lactating women .....	70
Mothers of older infants and young children .....	71
<i>Professional food handlers</i> .....	71
<i>High-risk groups and people preparing food for them</i> .....	71
Travellers .....	71
The elderly .....	71
The sick .....	72
The undernourished .....	72
<i>The community</i> .....	72
Refugees .....	72
Schoolchildren .....	72
Street food vendors and food service establishments .....	73
Surveillance .....	73
