

Ensuring Continued Success

- How can the momentum created impact surveillance long term?
 - Locally?
 - Nationally?
 - Regionally?

Future Disasters

- **What should be in place to more easily respond to next disaster?**
 - **Especially in terms of**
 - **Infrastructure?**
 - **Partnerships?**
 - **Guidelines?**

**World Health
Organization**

EWARN Methodology

- Works well for epidemic-prone diseases with clear case definitions
 - What about for communicable diseases without clear case definitions, e.g. skin infection?
 - What about for non-communicable diseases, e.g. trauma/injury?

Pharmaceutical Stockpile

- **Sudden donations from all over the world**
 - **Limited local capacity for organization, storage, distribution of huge quantities**
- **How best to handle in terms of outbreak preparedness/response?**

Partnerships

- **Collaboration between UN agencies, NGOs, and host country is critical to success.**
 - What worked?
 - What did not?
 - What actions can be taken to ensure effective working partnerships.?
