### Preamble

Based on a Decree of the Cabinet of the Republic of Yemen the Ministry of Public Health & Population (MoPH&P) contracted in June 2005 Deutsche Gesellschaft für Technische Zusammenarbeit (GTZ) GmbH for conducting a study on situation assessment and proposals for a national health insurance system. GTZ formed a consortium together with World Health Organization and International Labour Office. Together with the Republic of Yemen the World Bank and the World Health Organization co-financed the study. We would like to acknowledge the good partnership of all parties involved.

The consultancy contract requested the consortium to present

- |     |   |  |
|-----|---|--|
| I   | by two months of commencement of the consultancy: | 1. A report summarizing the main findings of the situation assessment (summary of relevant documents, review of national insurance schemes, analysis of the health financing opinion schemes as well as outcome of the visits and interviews of relevant stakeholders).  |
| II  | before the end of the consultancy:                | 1. Findings of the study which include a report on proposals for health financing alternatives.<br>2. A proposal framework for national health insurance which includes:<br>- An implementation action plan<br>- Macro-financial projections for the next 10 years<br>- Material to be presented in the dissemination workshop(s). |
| III | at the end of the consultancy:                    | 1. A final report on the consultancy service (in English with Arabic translation)  |

The contract was signed on 17<sup>th</sup> June 2005. The consultancy started 17<sup>th</sup> July 2005. The interim report was given to MoPH&P in four hardcopies and one softcopy in English by 14<sup>th</sup> September 2005. The above mentioned “before-the-end-of-the-consultancy” report was handed over in English by 10<sup>th</sup> October 2005. After a few modifications this report was translated and handed over as final report four months after starting the study. The final report has the title “Towards a national health insurance system in Yemen” and consists of four volumes:

- Part 1: Background and assessments - translated into Arabic
- Part 2: Options and recommendations - translated into Arabic
- Part 3: Materials and documents
- CD with electronic files of parts 1, 2 and 3, PowerPoint presentations and various background documents.

We take the opportunity to thank our partners in Yemen, especially His Excellency Prof. Dr. Mohammed Yahya Al Noami in the name of all partners and stakeholders who shared with us their insights, knowledge and wisdom.

Sana'a,  
17<sup>th</sup> November 2005

Detlef Schwefel
