- Battery: Lithium 3.6V
- Mass and weight: 95 x 40 x 12 mm and 40g

COMMENTS

Meets Performance features requested by WHO – WHO/PQS/E06/TR05.1

SGS - ISO 9001 Certification since May 1999

Function: With the LIBERO PDF Logger®, you require only one single device and no specific software to monitor temperature during the global transfer of goods to respective destinations. The LIBERO can be plugged into the USB interface of any PC to automatically generate a PDF file including a graph and detailed shipping information which can be read anywhere without difficulty. The LIBERO is the first PDF datalogger in the world which complies with the ISO Standard 19005-1-Document Management

Use: This electronic temperature datalogger is used to monitor the correct shipment and storage temperature of vaccines, medicines and other perishable goods.
