

**What have we discussed/learned/achieved  
In these 2 days**

**And how this will affect the future of GARD ?**

1- Thank you to our Chinese colleagues

2- Thank you all for your comments which  
Will be carefully taken into consideration

**1- GARD exists**

**2- GARD is « young » and of course needs to be improved.** Thank you for your comments

**3- GARD has been launched successfully**

## **4- Current products of GARD**

a- GARD TOR

b- GARD Website

- within WHO site
- GARD launch

c- GARD manual (to be approved)

d- GARD « basket »

- existing of WHO and non WHO programs (e.g. FCTC, ADF, spirometry, guidelines of GARD members....) listed in the GARD manual

e- GARD in countries

## **4- Current products of GARD (continued)**

### f- WG activities

- i. All WG have worked
- ii. WG-ToR to be finalized
- iii. GARD WG meeting at ERS
- iv. Partner agreements
  1. WG1: To be discussed
  2. WG3: Diagnosis of allergy
  3. WG6: Pediatrics

### g- Agreement with private sector

### h- GARD meetings in congresses

### i- GARD logo

## **5- We need to improve GARD... and.... we *WILL***

- a- Structure, procedures and strategic plan  
(as proposed by R Dahl and discussed)
- b- Better communication between us
- c- Rapid and on-time responses

And any other suggestions depending on your proposals

1- GARD is « young » and of course needs  
To be improved

2- GARD exists

3- GARD has been launched successfully
