Subject: FW:misoprostol in the WHO EML list..... FW: WWW Form Submission

> Name: A Concerned Citizen WHO EML

> Email: zaidi-s@

> country: usa

> sector: health

> suggestion_type: other_general

>

> Message: I am concerned about the attempts made by Venture Strategies

> and it's partners to include misoprostol in the WHO EML list. They use

> unethical practices to spread this drug at the community level in the

> underdeveloped parts of the world. All of us are aware that misoprostol

> is unsafe for pregnant women. However Venture Strategies is promoting

> it's use to cause abortions. We know that abortion must not be advocated

> as a means to control population and is not a method of contraception.

> However if WHO agrees with Venture Strategies and allows misoprostol use

> for PPH etc, there is a very serious reason for alarm.
