

Global Tuberculosis Control: Surveillance, Planning, Financing. WHO Report 2006

ISBN 92 4 156314 1 (NLM classification: WF 300) WHO/HTM/TB/2006.362

CORRIGENDUM

Page 18 Final paragraph, line 3: text should refer to Table 2.

Page 34 Figure 10: vertical axis of graph (b) should be labelled "Case detection rate, new and relapse cases (%)".

Page 43 Under heading "Trends in prevalence and death rates", start of second paragraph: text should refer to Figure 21.

Page 92 Country profile for India, figure for "Previously treated TB cases multidrug-resistant (%)" should be 15 (not 25), and should appear in italics (source: Zignol M et al. Global incidence of multidrug-resistant tuberculosis [accepted for publication in *Journal of Infectious Diseases*]).
